

Call for Community Research Advisory Committee (CRAC) Members

Email blurb

The Edmonton Multicultural Coalition is currently seeking individuals to serve on the Community Research Advisory Committee (CRAC). The role of the CRAC is to provide guidance to the EMC for carrying out Coalition's community research program.

We are looking for individuals from a diverse range of backgrounds and experiences who are interested in community-based research with ethnocultural communities in Edmonton from:

- government
- academia
- non-profit organizations
- EMC/Coalition members

We would like to emphasize that individuals do **not** necessarily require experience and knowledge in research, but are open to learning more about community-based research and/or ethnocultural communities in Edmonton.

For more information on CRAC, refer to the attached Terms of Reference.

If you are interested in serving as an advisory member, please email hidalgo@ualberta.ca.
